**INEO BRIGHT
PUSH PLATES
FOR WCS AND
URINALS**

100

PERCENT
PRECISION DESIGN

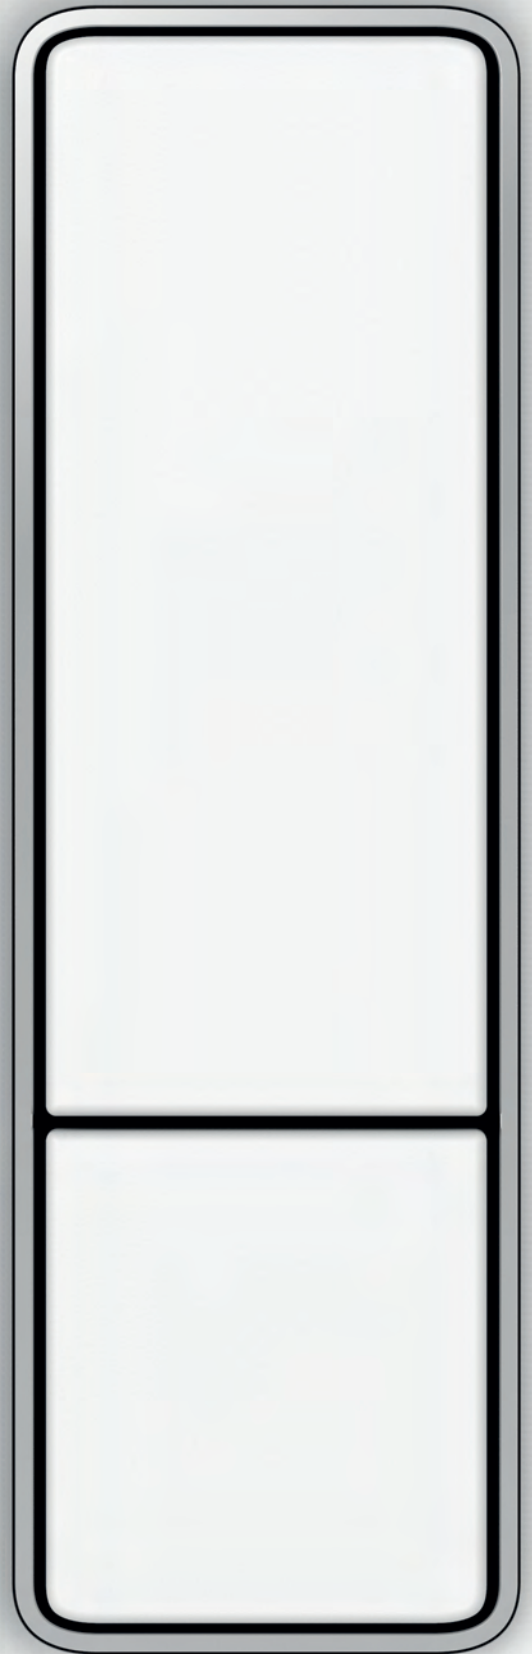

OUR PASSION FOR PRECISION DESIGN – **ATTRACTING ATTENTION INSTEAD OF BOREDOM**

Our new INEO BRIGHT design line gets exciting precision design to where it is least expected: at WCs and urinals. The vertically arranged push buttons lend a visual note that catches the eye. Surprise your guests, customers, visitors by a clear commitment to an unmistakable and exact form. Present precision and design in a modern and aesthetic way – INEO BRIGHT.

SOPHISTICATED DESIGN WITH MANIFOLD OPTIONS

INEO BRIGHT is of modular design. In less than no time you create a new individual look to the last detail. For it simply replace the front panel that is available in a large variety. High-quality materials, such as glass and stainless steel, underline the effect. INEO BRIGHT convinces by installation dimensions accurate to the millimeter and a nice design at the first glance and from the first touch.

**INEO BRIGHT push plate
of plastic material,
white, with a chromium
plated decorative frame**

—
A real highlight at WC and urinal: INEO BRIGHT catches the eye by its excitingly precise design.

INEO BRIGHT AT A GLANCE

STRIKING IN APPEARANCE

- Expressive, innovative design
- Available in different materials and colours
- Uniform look for WC and Urinal

MODULAR CONCEPT

- Easy replacement of components
- Creating individual looks in no time

EASY TO INSTALL AND SPACE-SAVING

- Compact dimensions, low installation height
- Connection by a flexible cable system
- Ideally suited for new construction, renovation and retrofitting

PRECISION IN EVERY DETAIL: PREMIUM MATERIALS AND DESIGN COLOURS. TRANSFORMING YOUR TASTE INTO **YOUR VERY DESIGN.**

*WC cover plate only

—
To get your individual look with INEO BRIGHT, you can choose from a number of colours depending on the material.

Plastic material or thermoset? Glass or stainless steel? With INEO BRIGHT you have the choice. No matter what you opt for: The individual components can be easily replaced at any time and a new look created.

Our new precision design line reflects the requirements and wishes when it comes to a modern bathroom design – accurate system, ambitious look, room for creative ideas, high functional and sensual quality.

The large variety of materials and colours is ideal for a customized design of WCs and urinals. Whether in public and semi-public areas or at home.

PRECISELY SO: SELECTING MATERIALS OF EXCELLENT PROPERTIES

In the basic version INEO BRIGHT is made of a high-quality, UV-resistant high-gloss plastic material of high breaking strength. If you also prefer a very scratch-resistant surface, we recommend the first thermoset push plate from SANIT. Both versions highlight in a stylish manner the push buttons by a narrow, chromium plated design frame.

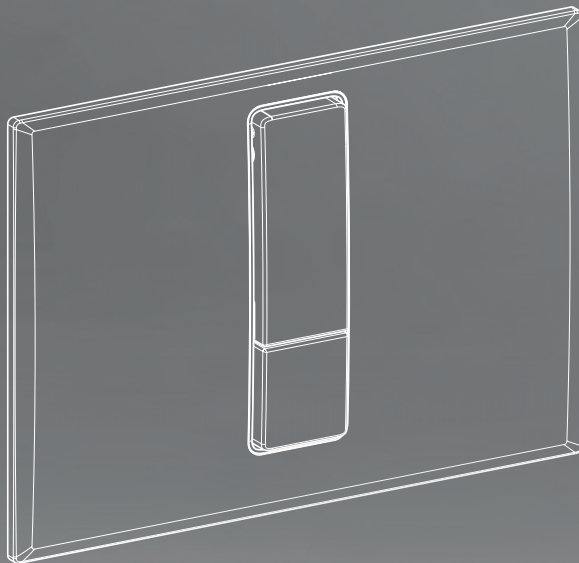

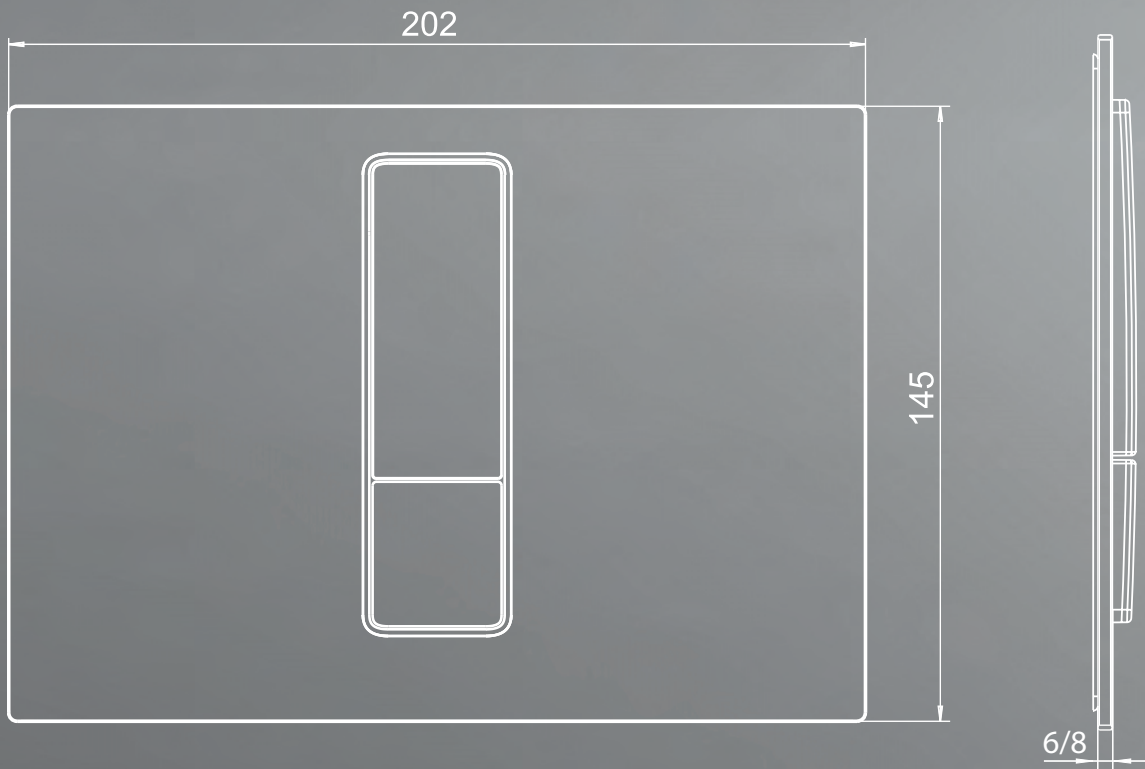

The glass and stainless steel versions are even more exciting by look and feel. We use unbreakable safety glass lending a high-quality appearance.

The type of robust stainless steel comes with a brushed surface.

In both cases the operating buttons have a brushed stainless steel finish and are embedded framelessly into the front panel accurate to the millimeter.

WC PUSH PLATE

Push plate INEO BRIGHT

for concealed cisterns with a small access opening, dual flush, consisting of the actuation element (plastic and thermoset types come with a chromium plated decorative frame), cover plate and fixing bolts, packaged in a cardboard box.

decorative frame

WC PUSH PLATE

TECHNIQUE

- Hand-operated, from the front or from above
- Water-saving dual flush

INSTALLATION

- Can be easily and quickly connected with the flush valve by the flexible cable system (turn and click connection)
- No setting as required by lever system
- Practical pre-wall installation (extremely flat, just 6 mm)

USE

- Fits all SANIT WC elements for concealed cisterns with small access opening

—
Urinal cover
of black glass

URINAL COVER

TECHNIQUE

- Hand-operated
- Pneumatic concealed urinal flush independent of water pressure

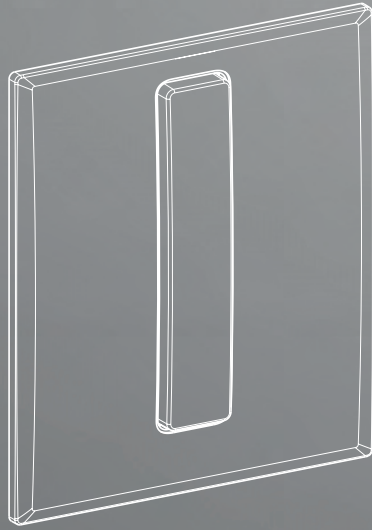

INSTALLATION

- Easy and fast thanks to universal SANIT cartridge roughing-in set

USE

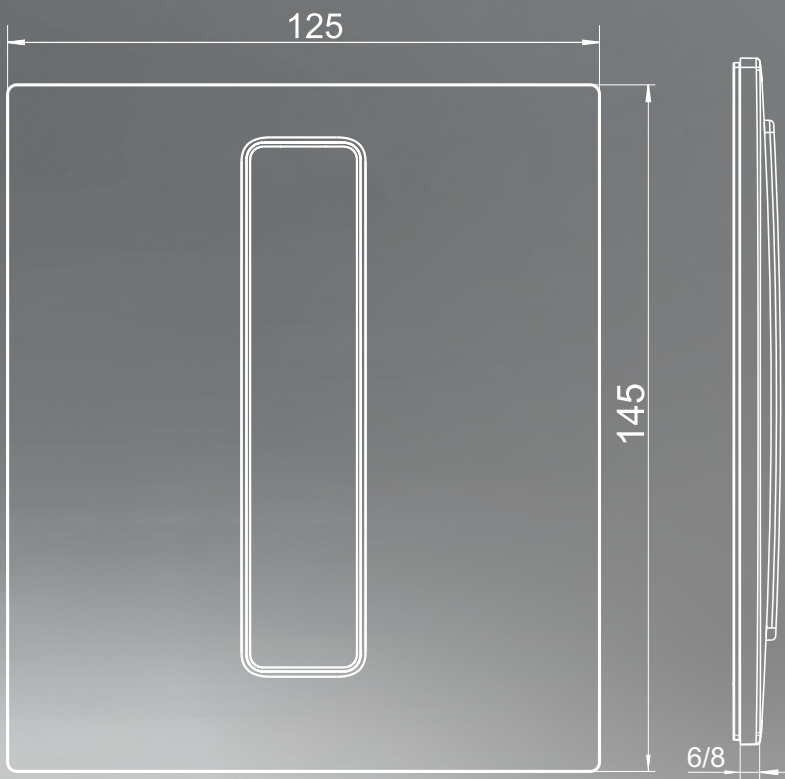

- Can be easily retrofitted into urinals already installed
- Can be combined with SANIT urinal element INEO with cartridge valve technology

URINAL COVER

Urinal cover INEO BRIGHT for hand-operated cartridge valve system.

Pneumatic concealed urinal flush independent of water pressure, finishing set consisting of actuation element (plastic type comes with a chromium plated decorative frame), cover plate and pressure pin, with pneumatic urinal cartridge valve with external thread 29 x 2 mm, with cartridge strainer, operating pressure max. 10 bar, flow pressure 1-6 bar, flow rate checked according to DIN EN 12541, noise class I <20dB (A), flushing time 4-20s, infinitely variable, including fastening material, packaged in a cardboard box.
