

FUNCTION MEETS DESIGN  
**FLUSH PLATES**  
**FOR TOILET AND URINAL**

## THE MODERN BATHROOM **EXTREMELY INDIVIDUAL**

---

Show me your bathroom and I'll tell you who you are: Bathroom design has never been as individual as it is today. It reflects our style down to the last detail. SANIT flush plates are therefore made to perfectly meet personal requirements. They combine a clear use of forms, conceptual design and the most modern flushing technology. High-quality materials and an attractive range of colors add more highlights. Whether in the private or (semi-) public area, whether for new buildings, renovations or retrofitting - with our flush plates for toilets and urinals, modern bathroom design is more individual than ever.

---

**Much more than just details:  
INEO BRIGHT flush plates for  
toilets and urinals.**

CEDO

INEO BRIGHT (Urinal)

INEO BRIGHT (WC)

LIS with illumination

Shapes, colors, materials. With our flush plates for toilets and urinals, you have the choice. Thanks to several design lines, you will find exactly the look that suits your bathroom. From businesslike to bold, from minimalist to elegant. The colors range from brilliant white to matt chrome gray down to the deepest black. Your taste also decides when it comes to the material: plastic or scratch-resistant thermoset? Glass or stainless steel? Create surprising design effects that convince from the first glance and the first touch.

# INEO BRIGHT

## EXCITINGLY PRECISE DESIGN

04

A clear commitment to the distinctive and precise shape: INEO BRIGHT is a visual exclamation mark that attracts attention. Thanks to the modular structure, you can create a new, customized look in no time. Simply replace the front panel and be done with it.

—  
Black thermoset, cool and scratch-resistant: the INEO BRIGHT toilet flush plate with a chromium plated decorative frame.

—  
Black glass, exclusive and elegant: the INEO BRIGHT urinal flush plate with button in stainless steel look.

— expressive, innovative design for toilets and urinals  
— available in different materials and colors

— easily replaceable components for individual looks  
— particularly scratch-resistant in the thermoset and glass version

—  
A visual exclamation mark catching the eye: INEO BRIGHT in the private bathroom.

# INEO BRIGHT INFRARED CONTROL **PLEASANTLY CONTACTLESS**

It couldn't be more convenient and hygienic: flush control via infrared sensor for toilets and urinals. Every user is reliably recognized and the flush triggered automatically, without any contact. The ideal solution for use in semi-public and public areas.

—  
**Function meets design:  
INEO BRIGHT is even  
more impressive with  
infrared flush actuation.**

- automatic flush actuation for toilet and urinal
- user-specific settings via maintenance and service remote control
- mains connection or battery operation possible
- can be retrofitted in existing systems

—  
**Hygienic and convenient:  
the INEO BRIGHT infrared  
urinal control is ideal,  
especially in semi-public  
and public areas.**

## LIS (WITH AND WITHOUT LIGHTING) IMPRESSIVELY PERSONAL

Much more than a control element: an impressive individual piece of design. The LIS flush plate for toilets is open to your ideas. Its striking square design element may be designed with glass, ceramics, stone and other materials. The optional lighting function enables additional visual highlights.

—  
LIS with lighting,  
ideal as a night light

—  
LIS with lighting  
and individual  
design element

- for flush-mounted built-in design, with high-gloss chromium plated metal frame
- available with lighting function (as night light, sensor-controlled, LED light strip in six colors and adjustable lighting duration)

- design element of glass, slate, granite or of customized design
- push buttons in alpine white, black, chrome and matt chrome

—  
Your bathroom - your  
design: LIS stands for an  
individual look.

# INEO SCOP

## ALMOST LIKE MAGIC

Deep black glass, atmospheric radiant edge of light - this is how the INEO SCOP toilet flush plate is impressive. An almost magical highlight in the bathroom. With infrared control for contactless and hygienic operation.

— SCOP

— SCOP, with optional logo laser engraving

- toilet flush actuation controlled by infrared sensor (dual flush)
- with function and background lighting

- individual logo laser engraving possible
- seven light colors to choose from: red, green, blue, green-yellow, magenta, azure, cool white

— Glass and light, magically united: INEO SCOP flush plate for the toilet.

## CEDO AND LOS

# THE MINIMALIST WAY

---

Two designs, one formula: pure elegance, puristic and yet elegantly presented. While CEDO stands out with its round buttons, LOS fascinates with its square buttons in a businesslike-graphic look. The practical benefits are not neglected, thanks to on-wall installation, low installation height and water-saving dual flush technology.

— Good taste catches the eye: the CEDO and LOS flush plates are impressive.

### CEDO toilet flush plate

- discreet, round buttons
- classic, with chrome-plated decorative frame
- available in alpine white, matt chrome and matt black

### LOS toilet flush plate

- stylishly integrated square buttons
- striking accents through bi-colour versions
- available in alpine white, black, chrome, matt chrome and colour combinations

— Clear design language: the right type for every bathroom.

# SWING AND SWING SANPURE® MOVING AND HARMONIOUS

SWING stands for movement: the flush is actuated by rocking technology, and that in small or large volumes, depending on the direction of the rocking. Thanks to the flush-mounted installation the flush plate also fits harmoniously in the bathroom design. The SWING SANPURE® variant ensures a plus in hygiene when using it.

—  
Simply rock it up or down: The SWING and SWING SANPURE® flush plates.

## SWING toilet flush plate

- narrow high-quality metal frame
- available in alpine white
- with water-saving dual flush system

## SWING with SANPURE® coating

- with a durable antibacterial surface coating made of SANPURE®
- reduces the multiplying of dangerous germs
- particularly suitable for age-appropriate facilities and clinics
- made of high-quality stainless steel

—  
Hygienic and easy to use: thanks to the SANPURE® coating, SWING is ideal for age-appropriate bathrooms.

## S 706 FLUSH-MOUNTED FOR TOILET AND URINAL **SUBTLE ELEGANCE**

---

The S 706 flush plates have everything you can expect from a versatile design line for toilets and urinals: harmonious design, especially for large-format wall surfaces, high-quality materials, practical everyday features. Whether flush plate for the toilet or urinal - the flush-mounted design is both subtle and elegant.

**S 706 toilet flush plate**

- round push buttons, arranged harmoniously
- elegant mounting frame made of stainless steel
- water-saving dual flush system
- made of glass, stainless steel or plastic
- available in white, black, chrome, matt chrome and stainless steel

**Urinal flush plate**

- with mounting frame made of stainless steel
- particularly easy to clean
- made of glass or plastic
- available in alpine white, white and black

—  
Flush-mounted design,  
ideal for smooth walls: the  
S 706 flush plate for the  
toilet and urinal.

## S 706 AND 704 **STRIKINGLY FUNCTIONAL**

---

These variants are particularly suitable for places where the users need some assistance. The curved, round buttons are easily recognizable, their arrangement and different sizes illustrate the functionality of the dual flush system. Another visual operating aid is possible by way of color combinations. The S 704 with single flush system and safety screw is ideal for public areas.

**S 706 toilet flush plate**

- easy-to-understand button arrangement for dual flushing
- available in alpine white, chrome and matt chrome
- proven color combinations for kindergartens and retirement or nursing homes

**S 704 toilet flush plate**

- for single flushing system
- with safety screw (for use in public areas)
- available in alpine white and stainless steel

— **Easy and safe to use: The well thought out design of the S 706 and S 704 flush plates makes it possible.**

## LIST OF PRODUCTS: INEO BRIGHT (HAND OPERATED)

WC flush plates can be used for SANIT concealed cisterns with small access opening, dual flush and flexible cable technology.  
Urinal flush plates for SANIT urinal cartridge valve technology.
